*non-responsive to species restriction.*

Commissioner for Patents

Examiner  
Art Unit: 3677

***Response to Amendment***

1. The amendment to the claims filed on 3/15/2005 is non-responsive. The amendment filed on 3/15/2005 is considered non-responsive, as applicant has not elected a single species as required. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant was advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143) in a previous action.
2. Species restrictions can apply to dependent claims; thus canceling the independent claims to the separate species and rewriting them as dependent claims does not eliminate the distinct species.
3. Examiner called but, due to both examiner and applicant being out of town, was unable to clarify this with applicant. Rather than penalize applicant with a possible final rejection, this response to amendment is being mailed.
4. Since the reply filed on 3/15/2005 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
5. Applicant is encouraged to change claims 24-37 to status "withdrawn", as they can be rejoined if a generic claim is found allowable. However, they will not be examined and rejoined until such time as a generic claim is allowed.

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
